1951-1952

The Lord Baltimore Press
BALTIMORE, MD., U. S. A.

AMERICAN JOURNAL OF PSYCHIATRY

INFORMATION FOR CONTRIBUTORS

Manuscripts—The original manuscripts of papers read at the annual meetings of the Association should be deposited with the Secretary during the meetings, or sent to the New York office promptly afterward. Do not deposit carbon copies.

Papers read at the annual meetings become the property of the Association. Not all papers read however can be published in the JOURNAL, and authors wishing to publish in other vehicles will first secure from the Editor the release of their manuscripts.

Papers will not be accepted for the annual program if they have been previously read at other meetings or if they have been already published.

Papers contributed during the year (not on the annual program) should be sent to the Editor, Dr. Clarence B. Farrar, 113 St. Clair Avenue West, Toronto 5, Ontario, Canada.

Style—Manuscripts should be typewritten, double spaced, on one side of paper. They must be prepared in conformity with the general style of the American Journal of Psychiatry. Retain a carbon copy of manuscript and duplicates of tables, figures, etc., for use should the originals be lost in the mails.

Multiple Authorship—The number of names listed as authors should be kept to a minimum, others collaborating being shown in a footnote.

Illustrations—Authors will be asked to meet printer's costs of reproducing illustrative material. Copy for illustrations cannot be accepted unless properly prepared for reproduction. Wherever possible, drawings and charts should be made with India ink for photographic reproduction as zinc etchings. Photographs for halftone reproduction should be glossy prints. Illustrations should be as small as possible without sacrificing important detail. Redrawing or preparing illustrations to make them suitable for photographic reproduction will be charged to author.

Author's Corrections in Proofs—Corrections, additions or deletions made by authors are to be charged to them. These alterations are charged on a time basis at the rate of \$3.00 per hour. Proper editing of original manuscript is important to avoid the expense of correction.

Tables—Tables should be typed and on separate sheets. Tables are much more expensive to set than text material and should be used only where necessary to clarify important points. Authors will be asked to defray cost of excessive tabular material.

References—References to text should be in the form of footnotes. These footnotes should be numbered consecutively from 1 up throughout the manuscript. Additional references for collateral reading should be assembled alphabetically according to author at the end of the article. Bibliographical material should be typed in accordance with the following style:

1. Van der Veer, A. H., and Riese, H. H. Treatment of schizophrenia with insulin-shock. *Am. J. Psychiat.*, 95:166, Sept., 1938.

Abbreviations should conform to the style used in the Quarterly Cumulative Index Medicus.

The American Journal of Psychiatry, formerly the American Journal of Insanity, the official organ of The American Psychiatric Association, was founded in 1844. It is published monthly, the volumes beginning with the July number.

The subscription rates are \$10.00 to the volume: Canadian subscriptions, \$10.50; foreign subscriptions, \$11.00, including postage. Rates to medical students, junior and senior internes, residents in training during their first, second, or third training year, and also to graduate students in psychology, psychiatric social work, and psychiatric nursing, \$5.00 (Canada \$5.50). Single issues \$1.25.

Copyright 1952 by The American Psychiatric Association.
Office of Publication, 1601 Edison Highway, Baltimore 13, Md.

Editorial communications, books for review and exchanges should be addressed to the Editor, Dr. Clarence B. Farrar, 113 St. Clair Avenue West, Toronto 5, Ontario, Canada.

Business communications, remittances and subscriptions should be addressed to The American Psychiatric Association, 1601 Edison Highway, Baltimore 13, Md., or to 1270 Avenue of the Americas, New York 20, N. Y.

Entered as second class matter July 31, 1911, at the postoffice at Baltimore, Maryland, under the Act of March 3, 1879. Acceptance for mailing at special rate of postage provided for in Section 1103, Act of October 3, 1917. Authorized on July 3, 1918.

THE AMERICAN PSYCHIATRIC ASSOCIATION

IN MEMORIAM

J. FREMONT BATEMAN, M. D.

1897-1952

Fifty-four years ago, on December 28, 1897, to Edward Grant and Delia J. Bateman, was born a son, who was destined to go far in the field of psychiatry.

It is said that in early life, when still a student in high school, he began to look forward to a career in this branch of medicine. In preparation he attended the Ohio University, at Athens, Ohio, where he majored in psychology but carried a very heavy course in biology, and received his A. B. degree on June 13, 1922. From there he went to Cornell University, where he received his Master's degree in 1924. While attending this school, he was an instructor in anatomy. He then entered the Medical College of the University of Cincinnati, where he received his Doctor of Medicine degree in 1927.

In that same year, he joined the medical staff of the Longview State Hospital as an assistant physician. Three years later, in 1930, he was made clinical director of that hospital, which position he held until early in 1937, when he left Cincinnati to become superintendent of the Columbus State Hospital, succeeding the late William H. Pritchard.

His superintendency was interrupted when he served as Ohio's first Commissioner of Mental Hygiene from 1938 to 1940. He resigned from this office to resume the superintendency of the Columbus State Hospital as it brought him in closer touch with patients. He continued as head of this hospital until his very busy and outstanding career was brought to an end by his untimely death on March 2, 1952, while in his very prime at the age of 54 years.

Dr. Bateman was a member of Cincinnati Academy of Medicine, Columbus Academy of Medicine, Ohio State Medical Association, American Medical Association, the Neuro-Psychiatric Association of Central Ohio, the

Southern Psychiatric Association, and a Fellow of The American Psychiatric Association. Last May when this organization held its annual meeting in Cincinnati, he was honored by being elected to the office of Counsellor. He was also affiliated with various other medical and professional societies.

As clinical professor of psychiatry in the College of Medicine, Ohio State University, he was an inspiring teacher. In his classes, he often expressed a hope that some of his students would enter the field of psychiatry, and it was a source of real satisfaction to him to see this happen in a number of cases.

He was also an eloquent and forceful speaker and prolific writer, having made many valuable contributions to the literature on various phases of his specialty.

Dr. Bateman was firm in his convictions that there was an organic basis for most if not all forms of mental illness and that proper and persistent research along this line would some day prove his contention. It was through his ceaseless and tireless efforts that such a research laboratory and program were recently established at the Columbus State Hospital. Not only the State of Ohio, but the entire nation is expecting fruitful reports from this work.

He married the former Natalie Simpson Bryan, who was a student at Ohio University when he attended there. Besides his widow, he is survived by two children, George and Margaret, of Columbus, and two brothers, Thomas also of Columbus, and George of the State of Oregon.

Dr. Bateman's loss is mourned by his numerous friends in the field of mental hygiene, and especially by his associates in the Department of Public Welfare, and the patients and personnel of the Columbus State Hospital. He will be greatly missed.

C. H. CREED, M. D.

ANNUAL INDEX

This periodical is indexed alphabetically under both Subject and Author entries.

In searching for a specific article the Author entry should be consulted if the name of the author is known, since the complete bibliographical reference is to be found only after the author's name. When there are two or more authors for an article the complete entry appears only under the name of the first author. Under the name of each of the joint authors a cross reference is made to the original author entry.

The same applies to book reviews, the complete title of the book being listed after the author's name in the list entitled Book Reviews in the Subject Index.

Titles under the subject entries are often inverted or shortened, and when there are more than two authors the name of only one is shown. For the complete author reference the Author Index should be consulted. The Subject Index covers original articles, biographic material, book reviews, obituaries, editorial comments, and news items.

R. indicates a book review; the title of the book is followed by the author's name and is also listed by author under Book Reviews. Ed. indicates an editorial comment or news item; P.P. a President's Page; H.N. a historical note. Memorial notices appear under the heading Obituaries and under the names of individuals. Correspondence is so labeled.

Entries concerning all meetings of scientific bodies are listed under Association and Group Meetings.

SUBJECT INDEX
